

EMBRACING CHANGE: TECH & AI

Chat-GPT, MT, TTS, VR learning, the metaverse... Keeping up with and choosing how to use the latest tech without burning your fingers can be stressful. As your language partner, Dialogue will help you make the right tech choices for your needs and business - without cutting out the all important human in perfecting your end product or achieving your goal.

Whilst keeping you up-to-date with the latest trends and how to use them to your advantage, you can still count on the delivery of tailored services with that human touch. There will always be a need for humans to create stand-out-from-the-generic-crowd transcreated marketing copy. And humans to ultimately educate, refine and keep AI in check.

ALWAYS WITH A HUMAN TOUCH

PHRASE TMS

Sophisticated translation tool
CMS integration
Translation memory function
